

REMARKS

There are identical components in connection with the various roof sections which interact with adjacent components. Certain features apply to all the components but a particular action becomes effective only between adjacent components.

In amending the claims, it has been tried to adapt the claim language to these circumstances referring to particular adjacent components.

It is believed that the objections of the Examiner (which were well taken) have been overcome by the proposed amendments.

And since the examiner has indicated that claims 1 - 8, 10 - 19 and 21 - 22 would be allowable if amended to overcome the rejections under 35 USC 112, the claims should now be in condition for allowance.

Reconsideration and allowance of claims 1 - 8, 10 - 19, 21 and 22 is solicited.

Respectfully submitted,

Klaus J. Bach, Reg. No. 26832
